

October 14, 2022

Presently our HOA has an agreement with Summit Broadband to provide Television and Internet services. The fee for this is included in everyone's HOA payments. Effective February 1, 2023 your Internet speed will automatically increase from 100/100 to 250/250. No increase in cost for this increase in speed.

Two things, you will benefit if you are using Summit Broadband. If you are not using this service you can change by contacting Summit Broadband at 239-444-0400. Some homeowners have continued to keep their previous vendor. If you have purchased your residence in Heritage Greens after the vendor was changed, February 1, 2018 you could not be using Summit Broadband.

Enjoy this upgrade.
